

Galvano Hengelo B.V. herewith declares that the metallic/conversioncoatings which we apply and which are mentioned below, are compliant with the following EU-regulations:

2000/53/EC End of Life Vehicle (ELV)

2011/65/EU Restriction of Hazardous Substances (RoHS 2)

Metallic/Conversioncoating	Compliant	Remark
Electrodeposited Silver on Copper (alloys)	yes	
Electrodeposited Silver on Aluminium (alloys)	yes	
Electrodeposited Zinc-Nickel (Protalloy®) on steel, transparant passivated	yes	
Electrodeposited Tin on all substrates	yes	
Electrodeposited Nickel on all substrates	yes	
Electrodeposited Tin-Nickel alloy on all substrates	yes	
Electrodeposited Copper on all substrates	yes	
Electroless Nickel (Mid-Phos / High-Phos) on Aluminium	yes	
Electroless Nickel (High-Phos) on Copper and Steel	yes	
Electroless Gold on all surfaces	yes	
Surtec 650 (Cr3-conversioncoating) on Aluminium	yes	
Passivation on Stainless Steel	yes	1)

Remarks

1. passivation performed in Nitric/Citric Acid-dilutions only oxidize the base material itself.

Date: September 21, 2017
